## SUMMARY

Dedicated and innovative third-year B.Tech Computer Science student with a passion for software development and a proven track record in web development. Successfully completed certifications in Java through NPTEL, demonstrating strong programming skills. Gained hands-on experience building websites during internships at MS SQUARE and GENZ EDUCATEWING, where I honed my ability to create impactful digital solutions. Eager to leverage my technical expertise and creativity in the software industry.

## WORK EXPERIENCE

### Web Development-intern

MS Square Technologies | May 5th, 2025 - July 9th, 2025

Progressively advanced skill set from foundational knowledge to expert-level proficiency, demonstrating a commitment to continuous professional growth and excellence.

## PROJECTS

### ONLINE BLOOD DONATION AND REQUEST PORTAL

Hyderabad, Telangana

Developed a web-based application designed to streamline the registration process for blood donors and facilitate efficient searches for available blood during emergencies. As the Team Lead, I successfully directed a team of 3 professionals from project inception to completion. Key responsibilities included selecting optimal technologies, ensuring high-quality deliverables, and strategically allocating tasks to maintain project timelines. This leadership role not only enhanced team cohesion but also resulted in a user-friendly platform, significantly improving emergency response efficiency.

Python Django Framework HTML CSS SQLite
